2 FIRMS BEGIN CONSTRUCTION OF UNITS AT DHOLERA SIR

"The foundation of two industries have already been laid. The chief minister has seen this. The planning is now being implemented on ground," said Hareet Shukla, CEO of Dholera SIR.

Two of the five firms which have been allotted land in the Dholera Special Investment Region (DSIR) — ReNew Power and Chiripal Group — have started constructing their units, said state government officials as Chief Minister Bhupendra Patel visited the project site on Friday and reviewed the progress.

Speaking at an event held at Administration and Business Centre for Dholera (ABCD) building, where local BJP leaders and former education minister Bhupendrasinh Chudasama were present, Chief Minister Patel said, "The expanse of Dholera SIR is bigger than a developed country like Singapore." He said Dholera was country's first greenfield smart city to get a IGBC rating.

GUJARAT: TATA POWER COMMISSIONS 300 MW SOLAR PLANT AT DHOLERA

AHMEDABAD: Tata Power Renewables Energy Ltd (TPREL), subsidiary of Tata Power, commissioned a 300 MW project in Dholera on Monday. The project will generate 774 million units per annum and in turn, reduce carbon emission by 7.04 lakh MT per year, the company said. Tata Power managed customized installation, based on the geographical locations and land conditions. The total area used for the installation is 1,320 acre divided into six different plots of 220 acres each.

Praveer Sinha, CEO and MD, Tata Power, said “Our technical expertise and project execution skills will further solidify our position in the solar EPC space and help India lead the way in renewable energy growth.”

RELIANCE INDUSTRIES PLEDGES \$80 BILLION FOR GUJARAT GREEN PROJECTS

Reliance Industries Ltd (RIL) on Thursday pledged to invest a massive ₹6 trillion (\$80 billion) in Gujarat over 10 to 15 years for its clean energy businesses, as India's largest fossil-fuel refiner seeks to extend its dominance amid a global shift to renewables.

The projects are expected to create one million direct and indirect job opportunities in Gujarat, RIL added. RIL said it is scouting for land for a 100GW renewable energy power project in Kutch, Banaskantha and Dholera in consultation with the state government and has sought 450,000 acres of land in Kutch.
